Experience

Amazon

SEATTLE, WASHINGTON

Software Development Engineer I

January 2016 – October 2016

Modified backend and frontend components of an established e-commerce platform with a focus on payments. Work was mostly in Java with additional work in C++, Perl, Python, and Go. Also served on-call on a handful of weeks to monitor and manage the large demand web services that underlie the payments platform.

Watzan, LLC

HALIFAX, CANADA

Software Developer

June 2015 – January 2016

One of a single handful of developers that are constructing and managing an MVC architecture that uses social media information from hundreds of users to tailor content and search results. This work is done using a mixture of Ruby on Rails, Coffeescript, and HTML.

Dalhousie University

HALIFAX, CANADA

Teaching Assistant

2012 – 2015

- OPERATING SYSTEMS – Winter 2015. Marked software assignments written in C.
- PRINCIPLES OF PROGRAMMING LANGUAGES – Summer 2014. Marked software assignments written in Scheme and Prolog.
- CONCEPTS IN COMPUTING, BIOINFORMATICS – various terms 2012-2014. Marked written and programming assignments covering a breadth of topics in computer science and bioinformatics.
- COMM. SKILLS: ORAL/WRITTEN – various terms 2012-2013. Marked, help teach oral presentations and common business document writing.

References. Assist. Prof. Michael McAllister, Prof. Philip T. Cox, Assoc. Prof. Christian Blouin, Instr. James Fleming.

Research Assistant & Software Developer, Blouin Lab

2012 – 2014

Took major part in writing Python libraries for geometric morphometric analysis of 2D and 3D biological structures, for molecular dynamics, for protein homology modelling, and for the parsing of essential file formats. These software libraries are used regularly by other graduate students in the laboratory for their projects. *Reference.* Assoc. Prof. Christian Blouin.

Research Assistant, White Lab

Summer 2010

Summer research assistant position in the Department of Chemistry for a group focused on physical chemistry of materials. Helped write a journal article for the Ashrae 2011 Annual Conference on Solar Panels and the use of Phase Change Materials (PCMs) to store energy. *Reference.* Prof. Mary Anne White.

Research Assistant, Wentzell Lab

Summer 2009

Summer research assistant position in the Department of Chemistry for a group focused on chemometrics and the analysis of chemical data. Wrote a suite of software in Matlab that helped in the finding of genetic motifs in DNA sequences and to evaluate statistical plots of findings. *Reference.* Prof. Peter Wentzell.

Please refer to my LinkedIn profile for further details and any relevant recommendations.

Education

Dalhousie University

HALIFAX, CANADA

Master of Computer Science

2014 – 2015

- Education in Adv. Data Structures, Algorithms, Heuristics, and Natural Language Processing.
- Written a thesis *Sampling Discrete Combinatorial Spaces in Phylogenetics* on combinatorial space visualization and analysis in bioinformatics.
- Published and currently maintain a Python software framework for combinatorial space analysis.

Supervised by Assoc. Prof. Christian Blouin. *Extracurricular.* Computer Science Graduate Society, Executive Secretary for later term of 2014.

Bachelor of Computer Science with Distinction • GPA 3.8 (Major 4.0) • Dean's List 2008 – 2013

- Thorough breadth of computer science fundamentals without specialization.
- Further focus on mathematics (geometry, cryptography, linear algebra) alongside chemistry.
- Completed individual and collaborative software projects in Java incl. a geo-location mobile game.
- Featured experience working with clients through a Community Outreach program.

Awards. Undergraduate Student Research Award from the Natural Sci. & Engineering Research Council (NSERC) for summer internships in 2009, 2012, and 2013. *Extracurricular.* Computer Science Society, Dalhousie University, Executive Secretary as of 2012-2013; Sodales Debating Society, Executive Secretary in 2010.

Skills

Technical Knowledge

- Experience with technical writing and documentation, through teaching and as a researcher.
- Advanced experience with Python, Java, C, and Ruby.
- Elementary to intermediate knowledge with C++, C# (.NET framework), Go, Ruby, PHP, Objective-C, Perl, and Prolog.
- Knowledge of **DATABASE TECHNOLOGIES**: MySQL, SQLite, NoSQL.
- Knowledge of **WEB TECHNOLOGIES**: HTML+CSS, XML, REST, JSON, Ruby on Rails, JavaScript.

Methodologies Have worked with different tools of machine learning incl. support vector machine (SVM) and random forests. Have also done a large deal of information extraction, data classification, data visualization, and data mining using conventional and classical tools.

Natural Languages English (*mother tongue*), Arabic (*limited working proficiency*), and French (*elementary proficiency*).

Interests

Non-exhaustive and in alphabetical order: Art, cryptography, gaming, guitar, music (collecting, recording), open source, philosophy, reading, typography.
